

Facebook Clone Application

1. Create Application Code (Only frontend Application) ✓

2. Create Dockerfile

3. Create Docker Image and Push to Docker Hub

4. pod.yaml bana ke k8s pr deployment

Git pr code dalne ka 3 step process
add ,commit, push

Docker Hub pr image pahuchane ka
process jo hota hai...
login, tag, push

Tag karna matlab jo bhi image upload karni hai
uske naam me aage username hona chahiye..
