Trunk Based Branching Strategy - For Terraform Code Repo

Multiple Branches ho sakti hai

only one branch jo long lived hai... - main
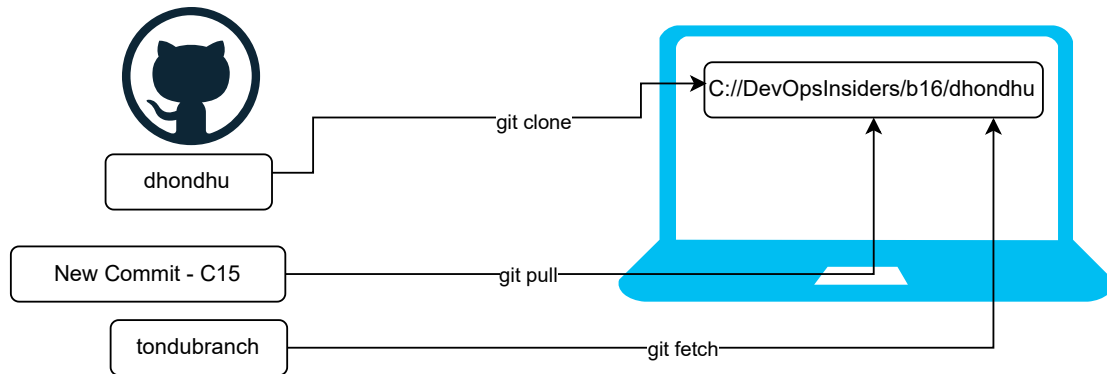

| feature/task1 | feature/task2 | feature/task3 |

Short Lived Branches - Jo aaegi aur thodi der me delete ho jaegi kaam khatm hone pr

Git Pull = Git Fetch + Git Merge

dhondhu

git clone

C://DevOpsInsiders/b16/dhondhu

New Commit - C15 ——— git pull

tondubranch ——— git fetch

Git rebase and Git fork, cherry-pick

Distributed Version Control System

add new resource group - rg-rahul

git clone , git pull, git push

C:/devopsinsders/tondu
git clone C:/dhondhu
dhondhu.txt git add , git commit

Bitbucket

GitHub

git pull

git push

Azure Repo

AWS Code Commit

git clone

10.12.45.12
