Pod ki jarurat kyu padi? Kya chull thi?

Pod ki jarurat padi container ko zinda rakhne ke lie...
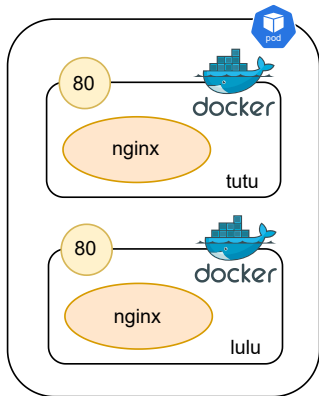

IP is assigned to a Pod, not to the container.

Requirement - ek namespace banao development nam ka

Us namespace ke andar me ek pod banao nginx ka

Pod ke andar two containers chale 2 container chle

AGar ek container ko mare, toh wapas se naya container bn jae...

```
Spec:
  containers:
  - name: tutu
    image: nginx
    ports:
    - containerPort: 80
  - name: lulu
    image: nginx
    ports:
    - containerPort: 80
```
